

Mechanical Designer Opportunity

Job Title: Mechanical Designer
Location: Waukesha, WI
Availability: Immediate – Full Time

Job Description: Seeking an individual to join our team as a Mechanical Designer. This individual will work in the Engineering department and report to the Engineering Manger but will also collaborate directly with all departments within the organization, which include Engineering, Quality, Production, Service, and Sales. The Mechanical Designer will be responsible for new product development, product improvements and other various projects.

Responsibilities:

- Maintain engineering change notice status and completion
- Maintain projects in an organized fashion
- Complete project tasks on time
- Create drawings of components identifying critical dimensions
- Assist Sales & Operations in determining manufacturing and purchasing costs
- Assist Engineers and other Designers as needed
- Assist customers with technical issues
- Create accurate BOMs for products
- Design safe and functional equipment
- Build & adjust prototypes as needed
- Work with outside vendors to source and validate new components
- Help troubleshoot product issues
- Inspection of field returns

Requirements:

- Strong verbal and communication skills
- Must work on projects independently with limited supervision
- Must work on multiple concurrent projects and manage time accordingly
- Analytical individual
- Team player
- Strong computer knowledge/skills
- Clear and concise writing skills
- Attention to detail
- Ability to use power, pneumatic and hand tools
- Efficient Problem Solver
- Mechanically inclined

Qualifications:

- Proficient in
 - MS Office software (Excel, Word, Outlook)
 - CAD software (preferably Autodesk Inventor)
- Not Required, but a plus:
 - MS Sharepoint & Project
 - Epicor
 - Experience with ISO and UL/CSA/CE certifications
 - Knowledge of fabrication processes
 - Machining background, welding, history of working with sheet metal, plastics and machinings

How to apply: Apply by sending resume via e-mail to Nick Oblamski, Engineering Manager at nicko@woodway.com
